Helsinki is the largest city in Finland and also the capital of the country. For the locals, it means the gateway to the world, for tourists, access to Finland. But Helsinki is much more than that! The proximity to the sea can be felt everywhere, but the city has more than 100 kilometers of coastline and about 300 islands. On the market place, directly at the south harbor in the heart of the city, there is always a lot of activity and here too the start takes place. Right in the harbor lies the heliport and promises a true AIR experience.
